

# THE EVENING CHRONICLE

VOL. II STRATHCONA, ALBERTA, SATURDAY, JUNE 6, 1908

No. 24

## Dreyfus Shot

Paris, June 5.—Just at the close of the ceremonies attending the execution of the Greek Zola in the Pantheon today, when the President of France, the Premier, and a host of ministers, all of whom were taking their departure, Louis Dreyfus, a military writer of note, drew a revolver and fired two shots point blank at Major Alfred Dreyfus, for whose liberty Zola had fought and won. Dreyfus, who was in all walks of life, fled the Pantheon and then the shots rang out there. Dreyfus, who was in all walks of life, fled the Pantheon and then the shots rang out there. Dreyfus, who was in all walks of life, fled the Pantheon and then the shots rang out there.

## Suicide at Calgary

Calgary, June 5.—Yesterday morning about 8:30 an Italian named Antonio, was found lying in the yard at the new station in a pool of blood and with a revolver lying at his side. He was at once taken to the General Hospital where it was found that he had a bullet wound in his head. A bullet wound in his head, and he died at 4:30 yesterday afternoon.

## QUEBEC TRICENTENARY.

Ottawa, June 4.—Arrangements are practically concluded for the holding of military games as originally planned. It is understood also that about twelve thousand troops will take part in the Quebec tricentennial celebration including personnel and corps and contingents drawn from every district and corner in the Dominion from Halifax to Victoria.

## Calgary Wants its Derby Winner Wins Oaks

Ottawa, June 5.—M.S. McCarthy, in the house today, asked that the sixty acres of Calgary towards held by the government be turned over to the city. He reminded the government that various townships in the West, after becoming C.P.R. property were later turned over to the government. In the case of Regina, Moose Jaw, and other places, the property has since been turned over to the municipality by the government as a gift. In the case of Regina, the amount realized has been a million dollars. "I make this demand," said McCarthy, "in behalf of the city of Calgary."

## Suicide of Hardisty Postmaster

Wetaskiwin, Alta., June 4.—Walter H. Small, postmaster at Hardisty, suicided at the station platform on Wednesday evening in a very tragic manner. Shortly before the train pulled in he was seen by a young man by the name of "Scotty" with a revolver in his hand. Scotty remarked that he had not better be shooting sparrows, as they are mosquito, to which no reply was given. As the train came into the station, he must have stepped off the platform to the side of the building and put a ball through his temple. The engineer on the train was the first to notice a man lying by the side of the station and he noticed that it was a man, supposing it was a man under the influence of liquor. Mr. Hornor, conductor of the train, was the first to identify the body as that of the postmaster, but life was extinct when the body was examined. Mrs. Small, mother of the young man who was about 38 years of age, and only left on Monday for a visit to her son and it is supposed in a fit of melancholy the deed was committed. He left a note to the postal authorities asking them to send a man in his place.

## Departmental Examinations

Examinations for Teachers' Diplomas and University Matriculation will be held from July 2nd to July 10th at the following centres: Calgary, Cardston, Edmonton, High River, Lacombe, Lethbridge, Macleod, Medicine Hat, Oka, Raymond, Red Deer, Strathcona, and Wetaskiwin. Candidates at other points are being advised regarding the centre at which they are to present themselves for examination. The official timetable will be issued in a few days.

## Charges Against Calgary Police

Calgary, June 5.—The evidence of Duncan, who is one of the two charged with stealing tobacco from the warehouse of Campbell, Wilson & Hume, at the court today, was given by R. Giustolisi, J. Signorinetta, the winner of the derby last Wednesday. Lord Falmouth's "Courtney" was second, and Santevie, owned by G. Edwards, was third. Thirteen horses ran. Rudora, Richard Fowler's, came in, upon examination by P.T. Nolan, his solicitor, swore that shortly after his arrest "he was called out of his cell by the chief of police in a very untidy manner. 'Come out of there you — from Montana,' is the language the prisoner said was used. He further stated that when he came out that the chief of police grabbed him by the throat and insisted that he tell who was with him. Before he had an opportunity to say anything Constable Hardy came to his aid. Under cross-examination by Mr. Nolan he admitted that he struck the prisoner a couple of times, but he said that when he went into the cell he found the prisoner in a dazed condition and he merely laid him down by the side of the cell."

## Tracks in Bad Condition

Calgary, June 5.—The swollen condition of the river at High River and the creek at Sandstone on the south branch of the C.P.R., continued to cause trouble. At the former place the river has risen so much and the current is so strong that fears are entertained for the safety of the railway bridge. At Sandstone the water has badly undermined a piece of the grading which fills a large hollow. At other places in the vicinity the water has washed a great deal of the gravel from under the ties and the trains are compelled to crawl over the dead spots in the line. One of the trains travelling over the road last night the engineer was forced to get out and examine the track in certain spots very carefully before proceeding. The train that was due at 12:40 today came in practically on time. At High River, pieces of culverts and timbers are coming down the river very frequently, indicating that a number of culverts and small bridges up the river are being washed away. The river was noticed to have shown a little during the night from the effects of the fresh downpour.

## Ketchell Beat Papke

Milwaukee, June 4.—Stanley Ketchell, of Grand Rapids, Mich., tonight got the decision over Billy Papke, of Kewan, Ill., at the end of a fast ten round bout before 6,000 spectators at the Milwaukee boxing club at the Hippodrome building. The contest was fast and furious from the tap of the bell to the finish, with the exception of a clinch. Time and again Ketchell beat Papke to the ropes with one, straight, of rights and lefts to the head and body. Ketchell repeatedly refused to break clinches appealed to. Ketchell in the first round took considerable steam out of Papke by hitting him a terrific right on the eye, sending the Kewan boy to his knees. The Grand Rapids man worked the fight out till it was to good advantage. At the end of the last round Papke was plainly in distress. Both men fought bravely and were in the palm of condition.

## FLOODS AT MACLEOD.

Macleod, June 5.—The Old Man River is rising alarmingly. The C.P.R. bridge west of Macleod has been swept away. The St. Mary's bridge between here and Lethbridge is a total wreck. The C.P.R. pumping station was swept into the river here this afternoon. Traffic is at a standstill.

## Situation in Afghanistan

London, June 4.—Reuter's agency says it is enabled to publish information from an unexceptionable source which brings to light four facts of the highest importance regarding the situation in Afghanistan. First, the absolute loyalty of the Amir to Great Britain and his appreciation of the Anglo-Russian agreement. Secondly, the attitude of the Afghan policy against his brother and against what he regards as British intrigues, and that prince's political intrigues, which extend to the importation of Turkish subjects to Kabul during the Amir's absence. Thirdly, the inability of the Amir to overcome these intrigues, owing to the general feeling in Afghanistan. And, fourthly, the very significant importation into Afghanistan on a large scale of arms and ammunition by way of Karachi.

## THE CORNER IN CORN.

Chicago, Ill., June 5.—The corner in May corn, which has been run by James A. Patton of this city and his associates has come to an end and the "Patton crowd" is generally credited with having made about \$2,000,000 on the deal, although it is admitted that all estimates are largely guesses. Mr. Patton personally declared that he did not know how much he had made.

## CASES COLLIDED.

Amelia, Md., June 5.—Two cars of the Washington, Baltimore and Annapolis electric railway company, running at high speed, collided near the city tonight, and were completely wrecked, the accident causing the death of eight people. Twelve were seriously injured.

## Early Morning Execution

Athens, June 4.—Condemned to death recently by a special Turkish court, two Greeks, named Cavallitis and Kokkimos, were executed in a great hurry at Monastir on Wednesday at two o'clock in the morning. The Turkish authorities brought a priest to the scene of the execution, without telling him where he was being taken, and forced him to render the last offices to this condemned man, being entirely unprepared, the priest could only offer up the prayer for the dying. The execution was proceeded with in spite of the protests of the Greek authorities at Monastir, who wished it stayed on the ground that the consuls and men were Greek subjects. The bodies were left on the scaffold for six hours, and the circumstances of the execution have produced a painful impression at Athens, where arrangements had been made for intervention.

## INDIANS AT OTTAWA.

Ottawa, June 5.—Chief Joe Caplan and of the Caplanos tribe, together with twenty-five other chiefs from the Indian reservation in British Columbia, are in the city at present on a mission involving the settlement of certain differences between the Indians and the department of the Interior. In the meantime they are enjoying a visit to the beauty spots of the city and preparing for an interview with the minister of the Interior.

## STEAM KILLED FOUR.

Los Angeles, June 5.—As a result of the bursting of a steam pipe on the cruiser Tennessee today just off Santa Barbara, four men were killed, and ten wounded.

## CONSERVATIVE RALLY IN TORONTO.

Ontario.

## WINNING PACKING PLANT

Winnipeg, June 5.—Shortly before the candidates was great. Hon. Thomas Cradock was not present, being campaigning in the province for the weak Logan Ave. West, by which means the firm practically put out of business until temporary quarters can be secured. The packing house and cold storage is in ruins and serious damage done to the other buildings. It is estimated that about \$500,000 of cases were in storage and a large number of hogs which will be practically useless for trade purposes. The loss is a most spectacular one and was witnessed by an immense crowd of people. The loss is fully covered by insurance.

Cape Town, June 4. — The overseas passenger returns for 1907 just issued by the Customs Bureau in Cape Colony plainly reflects the prevailing depression in South Africa, showing that the ebbs of emigration was far in excess of the flow of immigration. In 1907 the total of incoming passengers landed at Cape and Natal ports came within sight of 100,000; in 1907 it reached little over half that number. In 1906 only 34,000 passengers disembarked at the Cape ports, and last year the figure fell still further to less than 30,000. The shrinkage is almost entirely due to the decrease of male immigrants; for compared with the previous year's records the number of adult females and of children remained much as before. As to the nationality and class of these passengers it appears that all but about 8,000 were European or white, the females being Asiatics or colored people, and the number of passengers travelling third class was greater than the combined totals of first and second class.

The fall of passengers landing at Port Natal shows a heavy fall since 1905, from 36,000 to 30,700, but no doubt the cessation of Chinese immigration accounts to a great extent for this decline. Turning to the other of the accounts, last year the number of passengers embarked at Cape ports remained on pretty much the level of 1906—namely, 40,000, live eights of the total being adult males. The number of passengers travelling with first class tickets was practically double the combined totals of first and second class—a sure sign of hard times. From Port Natal a further 40,000 passengers embarked, nearly twice as many as in previous years. Once more to doubt the Chinese are mainly responsible for this sudden election. A combination of the totals shows that while 60,500 passengers landed by sea in the Cape Colony and Natal, the number of people who left was 79,500, indicating a very heavy balance in the outward direction.

## SIGN OF A GOOD SHOE STORE.

THE "Sign of the Slate," hung in front of any Shoe Store is sure testimony to four significant facts.

1st—that store is the most reliable in that town or it couldn't get the agency for "The Slater Shoe."

2nd—that it pays its bills promptly, in cash every thirty days, or it couldn't hold "The Slater Shoe" Agency.

3d—that it is satisfied with a reasonable profit on goods or it wouldn't be selling "The Slater Shoe," which is price-controlled by the Makers.

4th—that it sincerely intends to give the best value possible, and to deal "squarely" with its customers every time, or it wouldn't have signed such a contract as must be signed to control "The Slater Shoe."

Whether you buy Slater Shoes or not, a safe place to trade is at the store where swings "The Sign of the Slate"—for the four reasons given.

The genuine Slater Shoe has the slate frame brand stamped, with the Makers' price (\$4.50 or \$5.00), on the lining.

## To Our Readers

The Chronicle would esteem it a favour to receive any items of local news, social general or personal. It is always anxious to give publicity to little incidents and likely to be of interest and not calculated to injure feelings or cause unpleasantness.

## Around the City

Mrs. J.E. Weir's many friends will be glad to hear that she is slightly better, although still very weak.

J.D. Hutton will remove his store on the 1st of July to premises next door to Morris' drug store on 17th Ave.

Lieutenant E.A. Adamson's friend will be glad to hear that he is slightly better, although still very weak.

The Strathcona mill will be closed on Monday next, the anniversary of the disastrous fire which occurred a year ago.

Mr. E.T. Barnes, the secretary of the Board of Trade, brought into our office yesterday a peavine forty inches in height, grown just outside the city limits.

The executive of the Sons of England society request that flags be flown half mast high on Monday, out of respect for the anniversary of the men who perished in the fire a year ago.

H.A. Castle, owner of the city, who has been in the city for the last ten days building the capacious, new oven which Elder & Wood are erecting on their premises at the corner of Whyte Ave. East and 17th St. returned east this morning.

This forenoon one of the city teams bolted opposite D. Burns' store and ran westward down the pavement as far as Frank Cowie's store where it turned out into the street and running around the Mill's block made its way at a gallop. Speed up the lane between Whyte Avenue and First Avenue South. T.P. Malone's rig was standing in the lane, but by good fortune the runaway succeeded in getting past without causing any damage. As this is the narrowest part of the lane, the car was in a tight place. A team pulled up soon afterwards past the horse for their escape.

Weather Report—Heavy rains have fallen in Alberta and thunder storms have been general in Saskatchewan and Manitoba. In Manitoba and Saskatchewan it has been quite warm, in Alberta comparatively cool. Forecast—Much rain, south-east winds, fair and warm with local showers and thunderstorms. Saskatchewan and Alberta, unsettled, cool and showery.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, atonic suppositories go direct to the seat of those weaknesses. My "Bona No. 4 For Women" cost 40¢ is very valuable hints to women, and it is free. Ask the Doctor in strathcona, any questions you wish answered. Dr. Shoop's Night Cure sold by all Dealers.

An effort is being made to get the various orders in Strathcona to take up the Lamin memorial and to endeavor to carry it through. The suggestion is to erect a drinking fountain on the C.P.R. right-of-way, the railway company's permission having been obtained. The cost would not be great and it would be a pity if some memorial to commemorate Lamin's gallantry were not erected in Strathcona.

To stop any pain anywhere in 20 minutes, simply take just one of Dr. Shoop's Pain Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache or Pain Pain Tablets will quickly coast blood pressure away from pain centers. After that, pain is gone. Headache, neuralgia, painful periods with women, etc., get instant help. 20 Tablets 75¢. Sold by all Dealers.

In the number of Canada received this week the following article appears along with a cut showing the railway facilities of the City of Strathcona.

Strathcona, incorporated as a city in 1907, is situated at the terminus of the Calgary and Strathcona branch of the Canadian Pacific Railway, 192 miles north of Calgary. It stands on the north bank of the Saskatchewan river, 700 feet above the water, while Edmonton is situated on the north bank, two and a half miles away. The city is the divisional point of the Canadian Pacific railway. The pay toll is \$5,000 per month with prospects of a large increase in the near future. Last year the company spent \$500,000 in improvements in the city and it is expected that the amount will be expended in future years.

The Canadian Northern Railway also have access to the city, and are contemplating connecting it with their main line at Fort Saskatchewan.

Strathcona is so situated that it is a natural gateway to the West. North country, which abounds in minerals of all kinds, and is in addition very fertile. To the south and east there is a wonderful agricultural country which produces splendid crops of wheat, oats and barley, the average yield for Alberta being: Wheat 25 bushels, oats 60 bushels, and barley 30 bushels per acre. Yields of 500 bushels of potatoes per acre are not uncommon. All kinds of vegetables do well, and are of first class quality as may be shown by the fact that the Strathcona exhibit of such products "beat" first prize at the Dominion fair held in New Westminster in 1907. Cattle ranching is a most profitable business, as also is the raising of hock and dairying.

"The brick industries in the district are coal mining, being ten miles in an active operation with an average output of 1,000 tons per day, and with an unlimited supply in sight. This will be one of Strathcona's future great industries. In addition there are two large sawmills, with a yearly cut of 300,000 cu. ft. of lumber, and employing 175 men. Three packing plants, three brickyards, one foundry, one brewery, one oat meal mill, with a capacity of 200 barrels a day, one shoe mill, with a capacity of 100 pairs a day, and a second mill, are now being installed.

In the matter of schools Strathcona is better supplied with schools than most cities twice its size, having two high schools and the Collegiate Institute. Next autumn will see the university classes begin, as regards schools, above 40 nominations are represented in the city.

"The city is also very fortunate in having the Agricultural society grounds laid out with a race track, etc., as well as being adapted for all the summer sports. Besides these grounds the city owns three parks of exceptional beauty.

"Twelve years ago Strathcona was only a small village, now she is the largest city in the province of Alberta, possessing a population of 4,500, and having an assessment of \$200,000.
